Old Business:

Funding for SAC - update

To purchase tech tubs, chromebooks, and wheels, will cost more than expected (10 000). We may need to allot the 100 percent to initiative.

Lis Banfield - speaking with Craig Green regarding application for funding from Beaver Bank wind farm to support school initiatives. See: BCAA Community Dividend Fund [Capital Project Application](#). Not for profit organization to support community initiatives. Possible funding for Chromebooks?

Lions Club is another program to consider looking to for funding. Lions Club accepts letters of requests to discuss at their meetings.

Discussing repaving the paved part behind the school for student use. Could we use local pavers? What is the school board policy on this?

Future considerations: outdoor classroom area.
